# **INTRODUCTION**

The volume herewith presented constitutes R. L. Polk & Co.'s Sacramento Directory for 1927. The publishers have endeavored to produce a volume combining all that is vital in the civic, social and industrial life and activity of Sacramento.

A careful enumeration of the citizens and business interests of the community and a compilation of the result by trained employees assures as correct and reliable a work of its character as is possible to be produced. The publishers have an organization solely devoted to the publication of directories, and their methods and resources are unrivalled. Their imprint on the hundreds of directories published for cities throughout the country attests the quality and reliability of their product. Directories are an essential and indispensable means of reference and an index to what is in a community. They portray it as it actually is and they are the only means whereby its various features can be learned by the general public throughout the country.

The several essential departments of the Directory are set forth in the order following:

THE MISCELLANEOUS DEPARTMENT, pages 13 to 20, include data concerning city and county officials, churches, clubs, associations, schools, societies, parks, public buildings and halls, secret and benevolent societies, etc.

THE BUYERS' GUIDE, pages 29 to 86, contains the advertisements of the leading and progressive business men and concerns alphabetically arranged under headings adapted to the class of business conducted. This feature is printed on tinted paper.

THE ALPHABETICAL LIST OF NAMES OF CITIZENS, business firms and corporations is embraced in pages 89 to 603.

THE STREET AND AVENUE GUIDE AND DIRECTORY OF HOUSEHOLDERS extends from pages 605 to 780.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 803 to 888 and shows the various manufacturing, mercantile and professional occupations, compiled under headings appropriate to the class of business, pursued. This department will be appreciated as a special trade directory. The directory is the common intermediary between buyer and seller.

# Sacramento Facts and History

AGRICULTURAL

Sacramento Region produces 40% of the total value of agricultural products in the State of California.

# INDUSTRIAL

Number of Manufacturing Plants:

Annual value Manufactured Products: \$64,000,000.00

### LOCATION

Geographic and economic distribution center of the Sacramento Region, composed of twenty-one counties possessing over fifty per cent of the water resources of the State of California, rich agricultural lands and diversified industrial resources including lumber and industrial mineral deposits.

# RAW MATERIALS

Center of great producing area including the widest diversification of resources in the State.

# TRANSPORTATION

Two transcontinental railroads. Four interurban electric lines. Four Sacramento River steamer lines, 268 vessels. Eleven motor stage lines. Ten motor truck lines.

# POWER

Abundance of electric power at low rates.

### WATER

Excellent municipal water supply in abundance at lowest rates in United States.

# AVAILABLE SITES

Excellent locations on rail and water or both, available at reasonable cost.

# MUNICIPAL CONDITIONS

Low tax rates, excellent housing conditions, progressive city government providing ample facilities for industrial expansion.

### LABOR

Largest labor market west of Chicago with excellent relations prevailing.

# **OPPORTUNITY**

A sound, prosperous, expanding section of California with increasing markets.

# The Sacramento Chamber of Commerce

Is at your service for further information

ACRAMENTO, the "Heart of California" and the capital city of the State, is located at the confluence of the Sacramento and American rivers, in the center of the great agricultural and mineral producing area of California. With the background of a glorious history in which the city became the cradle of American civilization on the Pacific Coast, Sacramento, through her years of civic and commercial progress, has maintained

leadership among the cities of the West.

The close of the year 1926 marked a five-year period of development not matched by any previous twenty-year period in the history of the city. This was due in part to the progress of the Sacramento Valley and Mountain counties, and also to the large program of municipal development undertaken by the citizens themselves through their municipal government. During this period approximately \$60,000,000 was expended on improvements in building permits, bond funds, municipal budgets and allied activities.

The opening of the civic auditorium early in 1927 marks the conclusion of an unit of development undertaken by the city government in which vast extensions of the services rendered by the city were made. In 1926 the citizens voted another development unit of nearly \$2,000,000 for further municipal service extensions.

Sacramento has graduated from the ordinary capital city to a thriving metropolis of 105,000.

The westward movement of population has found Sacramento one of the beautiful cities of the Golden State, a comfortable and prosperous community in which to live.

The city is built on a level plain with an irea of fourteen square miles. The climate

is semi-tropical with an average mean temperature of sixty degrees.

Sacramento's streets are wide and have been made attractive by trees. There are eleven municipal parks containing more than one thousand acres.

Sacramento is the home of the California State Fair which is known as the best exposition of its kind in point of exhibits of agricultural products.

Sacramento has many historical points of interest including Sutter Fort, State Capitol and the Crocker Art Gallery.

Sacramento's school system is recognized as one of the best in the United States. New buildings have been provided including a new main high school and a new junior college. Several new hospitals, both public and private, have been constructed.

Sacramento's industrial development has been remarkable. There are now 420 industrial plants in the city. The principal industry is that of the canning and pre-

STATE CAPITOL BUILDING

serving of fresh fruits and vegetables, and Sacramento is now recognized as the canning center of California.

This is due to the fact that the Sacramento area is the largest deciduous fruit producing section in the world. In 1926, 3,147,000 cases of fruits and vegetables were canned in the Sacramento plants.

Sacramento is the banking center of interior California, being served by seven state banks with four branches and four national banks. The bank clearings in 1926 were approximately \$450,000,000.

# HISTORY

With dreams of a great agricultural empire and holding a land grant from the Mexican government, John A. Sutter sailed up the Sacramento River in August, 1839, and founded the settlement now known as Sacramento. He made friends with the Indians, erected a fort, and soon became prosperous as the head of an agricultural, grain and cattle industry. The discovery of gold at Sutter's mill in Coloma, sixty miles distant, by James Marshall, proved the ruin of Sutter's fortune and the beginning of the rapid growth of Sacramento as the Mecca for the gold seekers in the rush that followed. Sutter's men all deserted him for the mines, he was overrun by the hordes of fortune hunters that soon appeared, and his fortune waned, but his fondest dream of an agricultural empire lived on and has been realized far beyond his expectations.

Sacramento became the distributing center for the mines, and although the city suffered many reverses in its early history, such as floods, epidemics, and fires, these difficulties were overcome and the city now stands entirely free from such dangers. Sacramento became the State Capital in 1854 and was chartered as a city in 1863.

# THE SACRAMENTO CHAMBER OF COMMERCE

This organization is the active representative of the commercial, industrial, financial and civic interests of Sacramento in promoting its welfare and prosperity. It is equipped to supply complete and authentic information on all matters relating to Sacramento and Northern California. The chamber maintains an Industrial Department, Agricultural Department, Tourist Bureau, Convention Department and a Mining Department for this purpose. Arthur S. Dudley is Secretary-Manager. The chamber occupies its own building at 917 Seventh Street.
